

# GCMS ANALYSIS SUMMARY

## Eucalyptus Citriodora

*This GCMS analysis summary represents each chemical family's total percent (%) present in the essential oil. Because the environment and growing conditions naturally vary, impacting plant ingredient variances, this analysis is not lot-specific but a good representative of the oil quality.*

### Terpene Aldehydes

Anti-inflammatory  
Anti-spasmodic  
Calming  
Hypotensive  
Insect repellent

### Best for...

Body inflammation  
Back & Neck  
Hands & Feet  
Muscle & Joint  
Skin inflammation  
Sleep & Stress  
Natural repellent

# WHY YOU'LL LOVE OUR OILS

## WHY YOU SHOULD TRUST OUR OILS

- **Our essential oils are pure, authentic, 100% natural, and not diluted or adulterated.**
- Dr. Prabodh Satyal's laboratory, an expert in essential oil testing, purity, and adulteration, has tested each of our essential oils.
- **Each essential oil has been analyzed with the best available analytical techniques.**
- Our essential oils come from Madagascar, an island rich in fauna and flora and known for its healing, medicinal, and endemic plants.
- Our suppliers in Madagascar have been vetted.
- **Our founder, Dr. Patty has traveled to Madagascar and assessed each supplier based on their best practices, community endeavors, environmental projects, and, of course, their product qualities.**
- Dr. Patty, also a chemist, understands the meaning of high-quality essential oils. She has experience in testing plant active ingredients.
- **Dr. Patty ensures that you have the best and highest quality essential oils for your wellness and everyday use.**
